

# PREDATOR TRITON 900

Marketing Name  
PREDATOR TRITON 900

Model Name  
PT917-71

## PREDATOR TRITON 900

FORGED TO EVOLVE

Shatter the mold – in with the new. This laptop is the first of its kind with a screen that gets right in your face and literally bends to your will. Held aloft via the CNC-machined hinge, the 17-inch 4K IPS touch display hovers over the metallic body – filled to the brim with precious game-obliterating hardware.

## Target Audience

Game Enthusiast / Tech Maven

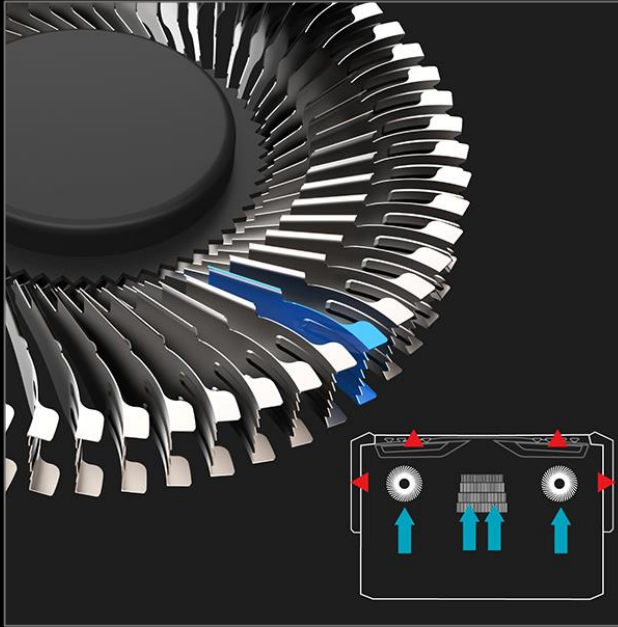

Gamers in this category prefer to game on the best hardware out there. For them, price is rarely an issue as long as it performs alongside top-tier devices.

Likewise, the tech mavens of the world enjoy owning a unique piece of gaming technology – one that stands out among the standard clamshells of the world.

## 1. SHOW YOUR TRUE FORM

This is not your typical gaming laptop. A quick glance at it makes you aware of the Corning® Gorilla® Glass cover which houses one of the 900's two 4<sup>th</sup> Gen AeroBlade™ 3D fans. To the sides of the display, two Ezel Aero Hinge arms grip the screen in a tight embrace – ready to morph into the mode of your choosing.

## 2. JUST COOL IT

Cooling comes first – which is why The Triton 900 utilizes two 4<sup>th</sup> Gen AeroBlade™ 3D Fans. With this generation, we took a bionic approach and mimicked the serrated wingtips of owls and silent flight mechanics. This, alongside CoolBoost™, provides superior cooling while spinning more quietly.

## 3. POWERED UP PERFORMANCE

Speed and power truly define this machine. Residing within the metallic shell are an 9<sup>th</sup> Gen Intel® Core™ i7 processor<sup>1</sup>, a GeForce RTX™ 2080 up to 32GB of DDR4 memory at 2666MHz and two 512GB<sup>1</sup> M.2 PCIe NVMe SSDs in Raid 0<sup>1</sup>. Bring on the 4K!

1. Specifications may vary depending on model and/or region. All models subject to availability.

#### 4. THIS CAN'T BE REAL!

Games in 4K look good. Most things do. So when you start up a game, tied to the frame-syncing power of NVIDIA® G-SYNC® Technology<sup>1</sup> you know this tear-free, seamless fun is just getting started. Go a step further with the empowering sound of Waves MaxxAudio® and the 3D acoustic creation of Waves NX®.

#### 5. TOTAL CONTROL

Take total control of the laptop with per-key RGB backlighting, macro keys and a switchable trackpad/humpad. When not playing with the lights, tap the Turbo to instantly overclock the GPU or head on in to PredatorSense™ to access overclocking, system monitoring, RGB lighting and more as – there's a lot!

#### 6. I WANT MORE

Feel like experimenting? With an extensive array of I/O ports, you can hook up three external displays or utilize the XBOX wireless dongle for some wireless gaming. Online, refine your skills with greater accuracy (and ping) with the aid of Killer DoubleShot™ Pro and 2.5G Gigabit Lan.

1. Specifications may vary depending on model and/or region. All models subject to availability.

## Unique Design

The CNC-machined Ezel Aero Hinge™ utilizes a U-shaped design. Despite the size of the screen and the laptop itself, the high-grade construction of the two hinges allows for firm flexibility.

Our custom AeroBlade™ 3D Fan Technology and copper heat pipes are visible via the transparent Corning® Gorilla® Glass panel.

### Ezel Aero Hinge™

Adjust the screen to fit your mode of choice via the patented rotatable hinge.

### Glimpse of Cooling at Work

Ultra-thin, durable and damage resistant Corning® Gorilla® Glass offers a view of our customized AeroBlade™ 3D fan.

## Advance Cooling System

The Triton 900 maximizes on cooling through a number of thermal solutions.

- Dual 4<sup>th</sup> Gen AeroBlade™ 3D Fans (12V)
  - Ultra-Thin (0.1 mm) & All-Metal
  - Serrated, Owl Wingtip-inspired Design
  - Fan Tip Winglets & Dual Ident Grooves
  - 59 Bionic Blades
- Six Copper Heat Pipes
- CoolBoost™ Technology
- Strategically placed intakes / exhausts
  - Vapor Chamber on CPU
  - Copper Plate on GPU

Up to +45% improvement in airflow\*  
Thickness of 0.1mm / 59 fan blades

4th Gen AeroBlade™ 3D Fan:  
The latest gen was inspired by silent owl flight mechanics to maximize airflow and minimize noise. Changes include a serrated edge, winglets along the top and bottom as well as the curved fin along the inner portion of each blade.

\* The performance is based on the comparison with same dimension of plastic fan. Actual airflow will vary based on site conditions, size of fan and other factors.

# RGB Mechanical Keyboard

The keyboard is low-profile and mechanical and built with vivid individual backlights for each key. Feel the difference with every press. Go ahead, have some fun.

What's included:

- Mechanical Switches
- Switchable Trackpad/Numpad
- Iconic Predator Typeface
- Per-key RGB Backlight
- Anti-ghosting with N-key Roll-Over(NKRO)
- Dedicated Hotkeys / Macros
- Turbo / PredatorSense™ Keys (\*NEW!)

# The Ultimate Tool

## PredatorSense:

Our customized utility app allows you to manage your system from one simple location. Get access to overclocking, monitor your device, specify fan speed and more.

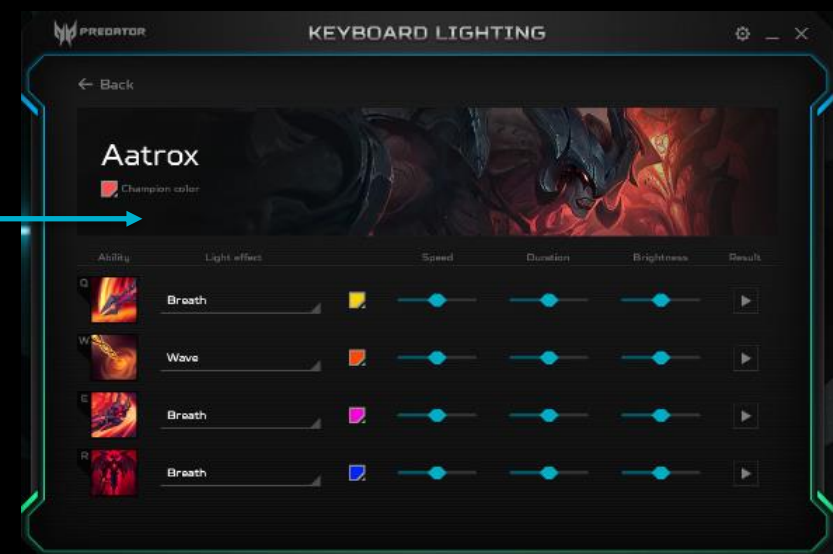

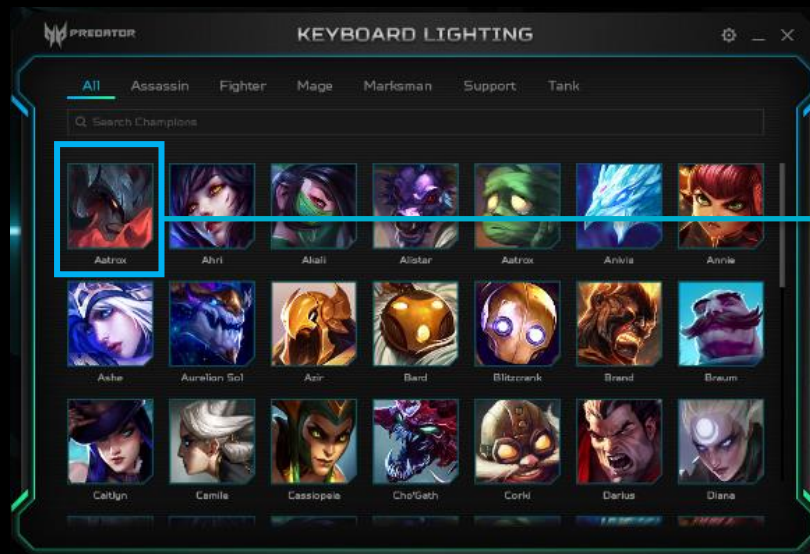

## Predator RGB Assault – LoL

With Overwolf and our per-key RGB keyboard layout, gain mastery over your hero choice with the aid of our customized patterns.

## Immersive Audio Experience

### **Waves Nx™**

Waves Nx uses state of the art physical modeling that delivers a realistic and convincing listening experience, by virtually mimicking the immersion of ultra-high-end speakers in a perfectly acoustically treated space.

With your headphones on, you're given a natural, three-dimensional listening experience.

### **Waves MaxxAudio®**

#### **MaxxBass®**

Intelligent bass enhancement.

#### **MaxxDialog™**

Intelligent dialog booster.

#### **MaxxVolum®**

Intelligent volume enhancer.

	A Cover (Top)	B Cover (Screen)	C Cover (Keyboard)	D Cover (Bottom)
<b>Color</b>	Abyssal Black	-	Abyssal Black	Abyssal Black
