## Original Concept: Sharper In Core Black

The GS76 Stealth looks plain and simple but comprised of abundant product design languages and details. The reinforced black metal chassis makes it more rigid perfect for daily use.

**GS76 STEALTH**

*SHARPER IN CORE BLACK*

## Weight and Size That Move You

The lightest & most portable 17-inches gaming laptop

The screen size of the GS76 is one of its biggest strengths, but the most amazing thing is that it weighs just **around 2.45kg, which is taking ahead in the area of portability among all 17-inches gaming laptop.**

Meanwhile the new minimalist design comes only with 20.25mm that contains stylish and mobility to work or play at anywhere.

# Perfection In Every Detail

## Laser-engraved Dragon Symbol

Laser-engraved totem on the matte black cover to reflect the purified Dragon spirits

## Perfection In Every Detail

### Hinge Décor

Iron black with metal texture hinge décor stands out in the core black design.

## Perfection In Every Detail

### Front-firing Speaker Grill

The enlarged front-firing speaker grid design provide both vision and auditory sensation.

# I/O Port Design

Key Selling Points  
Highlight

# KEY SELLING POINTS

## 01 Potent Performance to Game On

Play your games with the next leap gaming performance with up to **11<sup>th</sup> Gen Intel Core i9** processor and NVIDIA GeForce **RTX 3080** graphic card under MSI GS iconic **Cooler Boost Trinity+** cooling design with **OC settings** and **Discrete Graphic mode**.

## 02 High Speed Combination

Supports the latest **Thunderbolt™ 4**, **PCIe Gen4 SSD** and **Wi-Fi 6E**, the GS76 provides both high speed data transfer and fast charging for your mobile devices.

## 03 Weight & Size That Move You

The screen size of the GS76 is one of its biggest strengths, but the most amazing thing is that it weighs just around 2.45kg, which is taking ahead in the area of portability among all 17-inches gaming laptop.

## 04 Blast Through Your Eyes

The **QHD 240Hz** & **FHD 300Hz** displays give games the ultimate feast to enjoy the magnificent vision and blazing gaming speed.

## 05 Empower Your Mobile Life

Packed to the legal flight limit, the **99.9Whr** large battery capacity provides longer runtime. It also allows 100W fast PD charging to fueled the power on the road.

The KEY MESSAGES TO KNOW

## REAL-TIME RAY TRACING

By adding Motion Blur technology to enjoy the real-time & cinematic rendering quality in game.

## AI-ENHANCED – DLSS 2.0

DLSS is groundbreaking AI rendering that boosts frame rates with uncompromised image quality.

## PCIe RESIZABLE BAR TECHNOLOGY

Allow CPU to have full access of the GPU Memory (VRAM), which will accelerate the performance.

## DYNAMIC BOOST 2.0

Intelligently balances the power between the GPU & CPU and runs out more efficiency.

## NVIDIA REFLEX

By reducing system latency (click-to-display latency), it helps your display to respond faster in games.

# Cooler Boost TRINITY+

MSI's exclusive Cooler Boost Technology ensures optimal thermal dissipation. With the world's thinnest 0.1 mm sharp-edged fan blade design, the new Cooler Boost Trinity+ enhances the fan airflow and provides the best gaming experience.

3 Fans

6 Heat Pipes

\* The improvements are based on the preliminary estimation of the comparison with previous generation. The actual test results will be updated during MVT stage.

## 0.1mm Sharp-Edged Blades

World's thinnest fan blade design

Powerful performance needs an effective cooling system to exhaust the heat, and a thinner fan blade can meet this requirement.

Developed by MSI, the world's thinnest fan blade is measured up to **only 0.1mm**, which improves optimal airflow to achieve its cooling process.

Fan  
Blade  
**0.1** mm

# High Speed Combo

GS76 features the state-of-the-art technology, like blazing-fast **PCIe Gen 4 and Thunderbolt™ 4 with USB4**, to efficiently boost the daily work and even **empower the maximum personnel output**.

4x

USB data throughput

2x

SSD bandwidth

Thunderbolt™ 4

USB4 40 Gbps

USB 3.2 5~10 Gbps

Gen 4 Over 7.88 GB/s +

Gen 3 Over 3.94 GB/s +

# WiFi 6Expanded

## Extraordinary Wireless Experience

The GS76 Stealth is now introducing new "Wi-Fi 6E" terminology to help identify products capable of taking advantage of the additional spectrum.

## Blaze Through The Game

Refresh rate is the key for E-sports players' mindset. To liberate the most **precise and blazing speed**, GS76 Stealth comes with the **extremely smooth 300Hz IPS-level display**. Also supports **True Color** and best surround viewing mode with **1+3 Matrix Display**.

# Unsurpassed Clarity

Compared with Full HD, it has four times the number of pixels, and reach the standard of 100% AdobeRGB range (typical). Enjoy the 4K gaming experience with abundant color gamut and more vivid colors and details!

**FHD** 1920x1080

**4K** 3840x2160

*Generic*

**QHD**  
240Hz

## A Perfect Match with **Ultimate Vision**

Strikes a balance between 1080p and 4k

QHD 1440p display delivers 1.77 times pixel density than FHD to see more details and magnificent vision. The powerful RTX 30 graphics give sufficient performance backup to break high resolution game fps ceiling ever.

Also, It has an incredibly fast response time and a whopping 240Hz refresh rate to deliver a smooth and responsive gaming experience.

**ACOUSTIC ALGORITHM**

# Unparalleled Personalization

## Brand New MSI Center

Coming up with a brand new UI design, a reconstructed edition of the 2021 MSI Center will combine all MSI's exclusive features together, which users may customize their own preference of choice.

### WHAT'S NEW

#### Feature Set

Personalize your favorite app list, avoid unnecessary SW loading.

#### Smart Priority

Cooperate with Microsoft Azure to automatically set priority for apps based on AI learning.

#### Smart Image Finder

Systematically **categorize photos and smartly set tags** thru AI Image engine.

#### Duet Display (updated)

Add **Screen Extension** function with iOS devices to turn your iPad into a second display.

#### Noise Cancellation (updated)

Add **Whisper & Listening** optimized function, respectively amplify user's voice and auto-adjust the speaker volume all the time.

## 03 | Key Features

# DDR4-3200 MEMORY

## Power That Leads In The Latest Standard

Get the mighty performance out of your laptop with support of the latest DDR4-3200 memory. Enjoy the faster system speed and responsiveness, the new standard will take your gaming experience to the next level.

\*Dual channel performance test by AIDA64. Performance may vary by system setting and configuration .  
\*\*Optional. Actual specification may vary by configurations.

**TRUE COLOR**  
TECHNOLOGY

MSI exclusive **True Color Technology** provides different modes to best fit your various usages including: sRGB, Office, Movie, Anit-Blue light, and Gamer modes.

**Matrix Display**

Expand your vision across multiple display with **HDMI, Type-C and Thunderbolt™ 4**, or enjoy up to **8K resolution** output via Thunderbolt™ 4 / HDMI.

## Power Delivery On The Road To Extend Your Working Hours

Supports secondary power charging, you can charge GS76 through USB-C Power delivery with no need to rush for a power outlet. If you are on tasks with light workflows, you may extend your working hours with a smaller 65W adaptor that enhances your mobility at going anywhere.

GS75 also supports 27W (9V/3A) fast charging for all of your mobile devices which uses a USB-C Type charging port.

Support up to

# 100W

PD (power delivering)  
adapter/power bank\*

Over **3x**

Faster Smartphone  
charger\*\*

- \* When plug traditional AC and Type-C PD adapter at the same time, the system power will be delivered only by AC power. To ensure the minimum power and keep the system stable, the PD charging port only supports 65W watts and above devices (e.g. adapter , power bank) .
- \*\* The test results are preliminary estimation, actual test results will be updated during MVT stage.

## Tailor Your Keyboard

### Per-key RGB Gaming Keyboard By Steelseries

Customize each key to your liking and receive real-time in-game status through keyboard lighting, or even watch the lights dance to your favorite tune!

Steelseries Engine 3 provides a collection of purpose-built applications for gamers to have the best lighting experience.

**Per-key**

\* Intel is Rivet Networks' chipset partner on the E3100. The E3100 fully supports 1 Gbps with the option for 2.5Gbps on select routers/switches. The E3100 is only available on select MSI systems. In order to learn which routers will support 2.5GbE speeds, please visit this [Intel Website](#).

# Protect Your Ping

Stop losing games to lag with **Killer Gaming LAN**. Protect and prioritize networking traffic while preventing lag spikes to always game at your best. Gamers can easily manage bandwidth for each application with the user-friendly **Killer Control Center**.

The screenshot displays the Killer Control Center interface with the following sections:

- Killer Status:** Shows a green checkmark and the status "No Killer Adapters Connected". A yellow circle with the number "2" indicates "Recommendations Available".
- Current Network Traffic:** Displays two gauges for "Downloads" and "Uploads", both showing "0 Mbps".
- Killer Optimizations:** Features a circular progress indicator showing "261" and a legend for traffic types: Priority 1 (69), Download (50), Video (43), Current network optimized (40), and Other (9).
- Killer Prioritization Engine:** A table with columns for Priority and Category:

Priority	Category
1	GAMES
2	REAL TIME
3	STREAMING
4	NORMAL
5	WEB DOWNLOAD
6	APP DOWNLOAD
- WiFi Score by Access Point:** A table listing access points and their scores:

Name	Score
