

With its SuperSpeed USB 3.0 interface, durable metal casing and refined champagne gold color, the JetFlash 820 USB 3.0 flash drive is the most complete storage device for those with a taste for the finer things in life.

Ultimate Convenience

Transcend’s JetFlash 820 USB 3.0 Flash Drive gives you blazing fast storage on the move thanks to its SuperSpeed USB 3.0 transfer rates. Available in a wide range of capacities, the JetFlash 820 lets you carry all of your favorite movies, music, documents, and much more – all in the palm of your hand.

Exceptional Quality and Elegant Design

Blending fashion with technology, the sophisticated champagne gold JetFlash 820 boasts a durable yet lightweight metallic design that not only looks elegant, but also fully protects your important data wherever you go. The compact dimensions of the JetFlash 820 ensure that it won’t block adjacent ports on your computer or device.

Simple File Management

Using the JetFlash 820 on your computer couldn’t be easier. Simply connect the drive to a SuperSpeed USB 3.0 port and drag and drop desired files to and from the device. The JetFlash 820 supports Microsoft Windows 8.1, Windows 8/7 (32-bit and 64-bit), Windows Vista, Windows XP, Mac OS X, and Linux systems, and is backwards compatible with USB 2.0 and older USB 1.1 ports.

Compatible with a Wide Range of Devices

Application is not only limited to computers. The versatile JetFlash 820 can also be used with any compatible device* equipped with a USB port, including TVs, Blu-ray players, DVD players, stereos, digital photo frames and games consoles. For these applications, additional software is not required; all media playback is handled by the device.

Free Download – Transcend Elite Data Management Software

For added value, the JetFlash 820 includes the exclusive Transcend Elite data management tools. The software can be downloaded and installed from the Transcend website for free after purchase of the JetFlash drive. With this convenient software, you can easily perform incremental backups, compress files with 256-bit AES Encryption, and much more.

Quality Assurance

Transcend’s JetFlash 820 USB flash drive is manufactured with premium quality NAND Flash memory chips and is extensively tested for performance and reliability.

Storage Chart

| | Photos | Music | Video |
|-----------|------------------|------------------|------------------|
| | | | |
| File Type | JPG ¹ | MP3 ² | DVD ³ |
| 8GB | 3904 photos | 2000 songs | 3.5 hours |
| 16GB | 7808 photos | 4000 songs | 7 hours |
| 32GB | 15616 photos | 8000 songs | 14 hours |
| 64GB | 31232 photos | 16000 songs | 28 hours |

¹ Based on 2MB file size. ² Based on 4min per song, 128Kbps quality. ³ Based on 2.25GB per hour DVD quality.
Storage capacity approximations are for general reference only. Actual results will vary depending on resolution, compression quality, video frame rate/interlace settings, and content. 1GB = 1 billion bytes. A certain portion of the storage capacity may be reserved for firmware and maintenance use.

* Please check with the USB port-equipped device manufacturer for exact specifications and supported file formats before using the USB flash drive on the device.
Please see Transcend website for additional warranty details and limitations.
