HP 350 G1 Notebook PC

Durable design that keeps up with the demands of mobile use.

Built with durability in mind – inside and out – to meet the needs of professionals on the move.

Impact and bumps happen. HP 3D DriveGuard¹ helps protect your data when you're on the go by sensing sudden movement and protecting the hard drive.

Help protect sensitive electronics and key components from minor spills with this thin layer of Mylar film under the keyboard.

Life heats up. That's why there's HP CoolSense technology, which automatically adjusts your notebook's temperature based on usage and conditions. It stays cool. You stay comfortable.

With a user replaceable battery, you have convenience, style and easy maintenance.

Powered for business.

Gain the tools you need to stay in the driver's seat at work. From leading processors to Windows 8.1² technology, you're ready for work.

Get up to 1TB³ hard disk drive for storing documents, images, videos, and more of what you need.

Get more done with the new fast and fluid Windows 8.1.²

Confidently tackle projects with the power of the latest 4th generation Intel® Core™ i3/i5/i7 dual-core processors.⁴

Immerse yourself in stunning visuals thanks to AMD Radeon discrete graphics and 2GB of video memory.

Connect without hassles.

Say goodbye to dongles and have all the connections you need, including VGA display, HDMI, Ethernet, USB ports, and an optional built in DVD drive.⁵

Connect with colleagues via the Internet and email at the office or your favorite hotspots with optional Wi-Fi CERTIFIED™ WLAN.⁶

Watch DVDs using the optional integrated optical drive⁵—or write your own media. Print from your favorite hotspot or when you have internet access with HP ePrint. Now you can print without the cables.⁷

Sometimes in life, only a face-to-face conversation will do. Thanks to the HD Webcam,⁸ you always come off looking your best. Even in low light.

1. Microsoft Windows required.
2. Not all features are available in all editions of Windows 8.1. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8.1 functionality. See <http://www.microsoft.com>.
3. For hard drives, GB = 1 billion bytes. Actual formatted capacity is less. Up to 30 GB of hard drive is reserved for system recovery software.
4. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
5. Optical Drives are sold separately or as an optional feature.
6. Wireless access point and Internet service required and sold separately. Availability of public wireless access points limited.
7. Requires an Internet connection to a HP web-enabled printer and HP ePrint account registration. For complete details, see www.hp.com/go/mobileprinting.
8. Internet access required and not included.
9. This system is preinstalled with Windows® 7 Pro software and also comes with a license and media for Windows 8 Pro software. You may only use one version of the Windows software at a time. Switching between versions will require you to uninstall one version and install the other version. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data.
10. Service levels and response times for HP Care Packs may vary depending on your geographic location. Service starts on date of hardware purchase. Restrictions and limitations apply. For details, visit www.hp.com/go/cpc.
11. HD content required to view HD images.
12. Sold separately or as an optional feature.
