

EC Declaration of Conformity

We, the undersigned,

Manufacturer:	ASUSTeK COMPUTER INC.
Address:	4F, No. 150, Li-Te Rd., PEITOU, TAIPEI 112, TAIWAN
Authorized representative in Europe:	ASUS COMPUTER GmbH
Address, City:	HARKORT STR. 21-23, 40880 RATINGEN
Country:	GERMANY

declare the following apparatus:

Product name :	ASUS Tablet
Model name :	K018

conform with the essential requirements of the following directives:

2004/108/EC-EMC Directive

<input checked="" type="checkbox"/> EN 55022:2010+A2:2011	<input checked="" type="checkbox"/> EN 55024:2010

Year to begin affixing CE marking: **2014**

<p>Употреба и прегледно за употреба во сите држави од EC.</p> <p>Ограничени безжични честотни ленти од Франција</p> <p>Некои области во Франција имаат ограничени за определени честоти. Максималната разрешена моќност за внатрешна употреба в некои случаи е: - 10mW за цела честота 2.4 GHz (2400 MHz-2483.5 MHz); - 100mW за честоти меѓу 2446.5 MHz и 2483.5 MHz; 10mW до 13mW каде што илтимам работат в честотна лента 2446.5 MHz - 2483.5 MHz. Има малку можности за употреба на отворно: в честота соодветност или в честота соодветност на одредени исп, употребите е објект на предрителна процедура за одобрене од Министерството на одбраната с максимална разрешена моќност на 100mW в честотна лента 2446.5-2483.5 MHz. Не се разрешаат никаква употреба на одредени соодветност. За транспарентните постојат погодни, за цела честота 2.4 GHz; - Максималната разрешена моќност на сепумо е 100mW; - Максималната разрешена моќност на отворно е 10mW. Деловите, во којмо условите на честотна лента 2400-2483.5 е разрешено с ERP помало од 100mW за внатрешна и помало од 10mW за внатрешна употреба:</p>		<p>The device can be used in all the EU countries.</p> <p>France Restricted Wireless Frequency Bands</p> <p>Some areas of France have a restricted frequency band. The worst case maximum authorized power indoors are: - 10mW for the entire 2.4 GHz band (2400 MHz-2483.5 MHz); - 100mW for frequencies between 2446.5 MHz and 2483.5 MHz. Channels 10 through 13 inclusive operate in the band 2446.5 MHz to 2483.5 MHz. There are few possibilities for outdoor use: On private property or on the private property of public persons, use is subject to a preliminary authorization procedure by the Ministry of Defense, with maximum authorized power of 100mW in the 2446.5-2483.5 MHz band. Use outdoors on public property is not permitted. In the departments listed below, for the entire 2.4 GHz band: - Maximum authorized power indoors is 100mW; - Maximum authorized power outdoors is 10mW. Departments in which the use of the 2400-2483.5 MHz band is permitted with an ERP of less than 100mW indoors and less than 10mW outdoors:</p>			
01 Auvergne	16 Corse	45 Loire	64 Pyrénées Atlantique	84 Nord	<p>To be used only for the purpose of the device in the frequency band 2.4 GHz. The maximum authorized power is 100mW indoors and 10mW outdoors. This requirement is likely to change over time, allowing you to use your wireless LAN card in non areas within France. Please check with ART for the latest information (www.art-telecom.fr) Your WLAN Card transmits less than 100mW but more than 10mW.</p>
