

HP ProOne 400 G1 All-in-One Business PC (19.5-inch diagonal non-touch)

Meet your business needs with style, performance, and security

This space saving and stylish All-in-One offers impressive productivity features combined with powerful PC performance and security. Watch your business flourish while maximizing your total cost of ownership.

HP recommends Windows.

HP ProOne 400 G1 All-in-One Business PC

HP ProOne 400 G1 All-in-One Business PC (rear)

Customized convenience

- Take advantage of the stylish, progressive and space-saving All-in-One design that's the perfect fit for your business.
- Look smart and work smarter, thanks to a stylish design offering an easel stand for placement on your desk or VESA capabilities for wall mount.¹
- Keep all your work in plain sight. Be up to 35% more productive¹¹ by adding an external monitor with DisplayPort.
- Help improve the environment when you use an EPEAT® Gold² registered All-in-One PC with ENERGY STAR® qualified configurations. It's designed with the environment in mind.

Solid security

- Stay up and running. HP BIOS Protection⁸ offers enhanced protection against virus attacks to the BIOS and other security threats, and is designed to help prevent data loss and reduce downtime.
- HP BIOSphere⁴ helps keep unauthorized users' hands off your hard drive with HP Client Security⁵, automatic drive lock⁶ which requires a password for power-up.
- Keep sensitive information in safe hands. HP Trust Circles⁷ protects your data by ensuring that only approved contacts can access critical files.
- Rest easy and work confidently with dependable support options including a three year parts/labor/on-site warranty.
- Here's a PC you can rely on. Enjoy a business-class platform and 12-month lifecycle.
-

Professional-grade productivity

- Cruise through tasks easily and efficiently with the latest processor technology. Robust memory and a powerful chipset supports the Intel® Core™ 4th Generation processor.⁹
- Easily share your internet connection with up to five devices with HP Wireless Hotspot.¹⁴ Connect your smart phone or tablet or help colleagues get online and improve productivity.
- Add fast charging ports message (ProOne 400 has fast charging ports)
- Coast through your task list thanks to Windows 8.1¹² and HP. Enjoy a new user experience that includes intuitive and simple software applications like HP ePrint.¹³
- Simple and effective video and audio conferencing¹⁰ is easy with this Skype ready AiO with integrated video camera, microphone and DTS Sound + to provide crisp clear audio.

HP ProOne 400 G1 All-in-One Business PC

Operating systems	Pre-installed (availability varies by region): Windows 8.1 Pro (64-bit)* Windows 8.1 (64-bit)* Windows 7 Ultimate (64-bit)** Windows 7 Professional (32-bit)** Windows 7 Professional (64-bit)** Windows 7 Professional (32-bit) (available through downgrade rights from Windows 8.1 Pro)*** Windows 7 Professional (64-bit) (available through downgrade rights from Windows 8.1 Pro)*** Windows 7 Home Premium (32-bit)** Windows 7 Home Premium (64-bit)** Windows 7 Home Basic (32-bit)** FreeDOS 2.0 Novell SUSE Linux Enterprise Desktop 11

Please see the product QuickSpecs document for additional detailed specifications and information. See www.hp.com/go/businessdesktopPCs for more information about HP Business Desktop PCs.

*Not all features are available in all editions of Windows 8.1. Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8.1 functionality. See <http://www.microsoft.com>.

**Not all features are available in all editions of Windows 7. This system may require upgraded and/or separately purchased hardware to take full advantage of Windows® 7 functionality. See <http://www.microsoft.com/windows/windows-7/> for details.

***This system is preinstalled with Windows 7 Professional software and also comes with a license and media for Windows 8.1 Pro software. You may only use one version of the Windows software at a time. Switching between versions will require you to uninstall one version and install the other version. You must back up all data (files, photos, etc.) before uninstalling and installing operating systems to avoid loss of your data. Optional accessories sold separately.

1. Sold separately or as an optional feature.

2. EPEAT® Gold registered in the US. See www.epeat.net for registration status by country.

3. HP Support Assistant requires Windows 7, or Windows 8, or Windows 8.1 and internet access.

4. HP BIOSphere features may vary depending on the PC platform & configuration.

5. HP Client Security requires Windows 7. Planned support for Windows® 8.1 expected to ship with products beginning in December 2013.

6. Automatic DriveLock will work on another HP Business PC when the BIOS passwords are the same. Requires user set up.

7. HP Trust Circles Standard, when included, allows up to 5 Trust Circles with up to 5 contacts in each Trust Circle. Optional Trust Circles Professional required for unrestricted number of Trust Circles and members contacts. Trust Circles Reader is available to allow a contact to participate in an invited Trust Circle. Requires Windows.

8. HP Tools partition with HP BIOS required for automatic recovery.

9. Multi-Core is designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel® architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers, and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel® 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.

10. Requires internet access.

11. "Observed Productivity, Efficiency and User Satisfaction when Using Multiple or Large Displays," Koala LLC Ergonomics Consulting, November 6, 2012.

12. Not all features are available in all editions of Windows 8.1 Systems may require upgraded and/or separately purchased hardware, drivers and/or software to take full advantage of Windows 8.1 functionality. See <http://www.microsoft.com>.

13. HP ePrint requires Microsoft Windows 7 or higher edition. Requires an Internet connection to HP web-enabled printer and HP ePrint account registration (for a list of eligible printers, supported documents and image types and other HP ePrint details, see www.hp.com/go/eprintcenter). 14. The wireless hotspot application requires an active internet connection and separately purchased data plan. While HP wireless hotspot is active, on-device applications will continue to work and will use the same data plan as the wireless hotspot. Wireless hotspot data usage may incur additional charges. Check with your service provider for plan details. Requires Windows® 8.1 or HP Connection Manager for Windows 7

15. Maximum memory capacities assume Windows 64-bit operating systems or Linux. With Windows 32-bit operating systems, memory above 3 GB may not all be available due to system resource requirements.

16. Dual Channel is only supported when the system is configured with DDR3 symmetric memory.

17. For hard drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16GB (for Windows 7) and up to 36GB (for Windows 8.1) of system disk is reserved for system recovery software.

18. Duplication of copyrighted material is strictly prohibited. Actual speeds may vary. Double Layer media compatibility will widely vary with some home DVD players and DVD-ROM drives. Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 Double Sided-Version 1.0 Media.

19. Blu-Ray drive XL contains new technologies; certain disc, digital connection, compatibility and performance issues may arise, and do not constitute defects in the product. Flawless playback on all systems is not guaranteed. In order for some Blu-ray titles to play, they may require an HDCP path and HDCP display. HD-DVD movies cannot be played on this BDXL Drive.

20. Integrated Intel HD graphics uses part of the total system memory for video performance. System memory dedicated to video performance is not available for other use by other programs.

21. HP PageLift requires Windows 7 or higher edition.

22. HP Support Assistant requires Windows 7 or later edition and internet access.

23. Service levels and response times for HP Care Pack Services may vary depending on your geographic location. Service starts from date of hardware purchase. Restrictions and limitations apply. See www.hp.com/go/cpc for details.
