

Ease of use

PROTECT Business.

10 YEARS WARRANTY

Business solution with surge protection

Surges can be caused, for example, by lightning striking your premises. Lightning induces voltage surges in conductors and cables that can damage any connected equipment. Also switching in households, for example with fluorescent lamps and conventional ballast, can cause surges in the buildings wiring system. Effective protection provides AEG's surge protector series.

Protect your laptop and projector at conferences. Thanks to its folding mechanism, PROTECT Business. is suitable for conference tables and desktops. In addition, it offers surge protection for data cables (RJ45) and a dual USB charger unit.

Key features:

- 6 protected sockets
- surge protection for network cables (RJ45)
- foldable mechanism for conference tables
- 2 protected USB charger
- dust resistant and childproof sockets
- surge protection up to 36,000 A

PROTECT Business: technical specifications

| Category III / D / T3 acc. to IEC 61643-1 | PROTECT Business. |
|---|------------------------------------|
| Nominal input current | 230 Vac, 50 / 60 Hz |
