### Full SECC metal plate

Forged from a full SECC metal plate, Cerberus Gaming Keyboard has a rugged, durable design that stands up to the rigors of continuous, intense gaming.

### Splash-proof design with drain hole

Cerberus Gaming Keyboard features a splash-proof design to protect against accidentally spilled liquids. An integrated drain hole prevents liquids from being trapped inside the keyboard and ensures easy cleanup after spills, so you can get back to gaming with minimal disruption.

### 12 macro keys

Cerberus Gaming Keyboard is equipped with 12 dedicated and easy-to-reach macro keys, so you can issue custom in-game commands with a single keystroke and enjoy complete tactical flexibility.

## Fully rubberized feet

With fully rubberized feet that provide enhanced friction on any surface, Cerberus Gaming Keyboard stays firmly in place during even the most intense gaming sessions, so you can push for the win without pushing your keyboard around.

## Agile DPI control with LED color indicator

A DPI clutch enables instant switching among four customizable sensitivity levels, giving you the right amount of speed for

standard gaming sequences and ultimate precision when you need it, such as when sniping. A convenient LED color indicator lets you know the current sensitivity level at a glance.

### Stylish ambidextrous design

Designed to perfectly fit both right- and left-handed gamers and accommodate any grip type, Cerberus Gaming Mouse provides comfortable gaming experiences with total control.

### Improved rubber side grips

Cerberus Gaming Mouse features improved rubber side grips that stay cool and reduce slipping from sweat to keep you holding on during intense gaming action.
