**EFFECTIVE PAPER MANAGEMENT**

Information is the lifeblood of every business. In today's digital world, it's important to be able to manage paper documents and unlock business-critical data stored in documents. The Xerox[®] DocuMate[®] 6440 is one of the fastest and most user-friendly scanners in its class. With its advanced paper handling technology, integrated image enhancing software and a small footprint, the DocuMate 6440 is packed with features that will change how you look at and manage paper documents and information.

NO INDUSTRY LEFT BEHIND

Its versatility, combined with advanced features makes the DocuMate 6440 an attractive solution for banking, education, energy, financial, government, healthcare

and manufacturing industries. Plastic ID cards, as well as paper documents, can be scanned through the automatic document feeder (ADF) which holds up to 80 pages**. Fast scanning speeds of 60 ppm and 120 ipm in duplex, plus a 6,000 page daily duty cycle ensures the technology is a productive addition to your document capture workflow.

AUTOMATED WORKFLOW WITH ONE EASY TOUCH

The DocuMate 6440 is powered by Visioneer[®] OneTouch[®] technology to scan documents instantly to one of nine preset, yet completely configurable destinations. Visioneer OneTouch takes control of your document management workflows and scans in data using the optimal settings for resolution, colour, duplex, auto-crop, auto-straighten and file format, and

then delivers it to virtually any application, folder or device at the touch of a button.

Working together with Acuity image enhancing software, imagine the workflow possibilities of delivering perfect scanned paper documents in a searchable PDF format to email or Microsoft[®] SharePoint[®] or a custom web application for your enterprise, all right at your fingertips. Not only is this a productivity gain, but it greatly reduces the training time for scanner users, further helping your return on investment.

MULTIPLE PLATFORMS

For Mac[®] users, the Xerox[®] DocuMate[®] 6440 includes a fully featured TWAIN driver, ICA support, and a simple yet powerful Scan Utility, allowing you to get started right out the box.

Xerox® DocuMate® 6440 Scanner Software and Specifications

VISIONEER® ACUITY

Visioneer Acuity with DriverPLUS technology enables your scanner to instantly improve the visual clarity of scans. Using advanced algorithms, Acuity will intelligently correct documents containing imperfections, improve quality of scanned images for archiving, increase OCR accuracy, and save time.

As a standard software protocol and applications programming interface, TWAIN drivers control the communication between a software application and your scanner and serve as the primary user interface to the scanner within applications. When combined with either a Visioneer TWAIN certified driver or Visioneer OneTouch Technology, Visioneer Acuity creates an integrated software solution that produces scanned images of the best quality possible.

VISIONEER ONETOUCH®

Visioneer OneTouch is an easy-to-use scanning utility that sends your scanned documents to nearly any destination by simply pressing a button on your Xerox® DocuMate® scanner. The scanned files are automatically delivered to a folder, email, Microsoft Office application, a local or network printer, a custom application or even the cloud. The resolution, colour depth, file format and paper size are all preset, but of course can be changed at any time. OneTouch is integrated with Visioneer Acuity so the image enhancement features are all available with the simplicity of one button scanning.

THIRD PARTY SOFTWARE

We have partnered with world class software companies so that our customers can have the complete digital transformation package, and in addition to Visioneer Acuity image enhancement and Visioneer OneTouch functionality, we added other powerful tools for that help organize and transform your workflow. They include Optical Character Recognition, document organizational software, and intelligent search software.

SOFTWARE SOLUTIONS FOR MAC®

Mac TWAIN™

The Mac TWAIN driver offers all of the features of Acuity Image cleanup built in, such as Blank Page Removal, Auto Color Detect, Auto Rotate and many more. It also includes a digital endorser to add text to your images, the ability to read barcode data (3rd party software required to interpret barcode data), and Merge two sides.

Visioneer Scan Utility

If there is no scanning application on your Mac, a simple but effective scan utility is included, allowing you to take full advantage of all of the drivers' features. Simply put, set your driver preferences, select an image format (BMP, JPG, GIF, PDF, MPDF, TIF and MTIF), choose where you want to save your images to, and start scanning.
