Tackle color-critical jobs
with all the tools you need.

Sit back. Relax. Create.
Fits the way you work.

Highly reliable
Dell monitors — the number 1
monitor brand worldwide for
four consecutive years.

Redefine realism.

DELL ULTRASHARP 27 4K HDR MONITOR | UP2718Q

CREATE YOUR MASTERPIECE

View lifelike colors, exceptional clarity and striking details.

- **Visuals that inspire:** Design and edit your best work yet on Dell's first 27" 4K HDR monitor that meets HDR10 standards.¹
- **Realism like never before:** An incredible peak brightness of 1,000 nits (at least three times brighter than today's standard SDR displays) means you'll see the deepest blacks and brightest whites for impressive, true-to-life visuals.
- **Details even in the dark:** Whether you are working in the shadows or the light, you'll still see small details that would otherwise be lost without a high contrast ratio of 20,000:1 and 384 local dimming zones.
- **The video editor's choice:** Handle even the most color-critical post production editing like a pro with the Rec 2020 color space.
- **Capture every nuance:** Experience four times more detail than Full HD with 3840 x 2160 Ultra HD 4K resolution.

SIT BACK. RELAX. CREATE.

Convenient connectivity, simple manageability and adjustability to fit the way you work.

- **Convenient connections:** Experience multiple plugin options with dual HDMI 2.0a for simple connectivity to HDR devices.
- **Simple manageability:** View applications between two PCs simultaneously on your screen and manage the content with only one keyboard and mouse with a convenient keyboard, video and mouse (KVM) feature.
- **Designed with you in mind:** No two people work the same — tilt, pivot, swivel and adjust the height to experience your ideal setup.

DELL PREMIERCOLOR — SUPERIOR COLOR PERFORMANCE

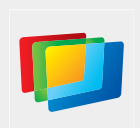

Exceptional tools for color professionals.

- **A broad, brilliant spectrum:** Dell PremierColor offers wide color coverage that meets major industry standards — 100% AdobeRGB, 100% sRGB, 100% Rec. 709, and 97.7% DCI-P3 and 76.9% Rec2020 — for immaculate, unwavering colors.
- **Extraordinary color depth:** Tremendous color detail with 1.07 billion colors (that's 64 times more color depth than standard monitors). Even in dark areas, you'll see better color gradation and precision in more shades.
- **Fine-tune with precision:** Customize color parameters to your preference using the Custom Color mode, SDK² or an optional X-rite iDisplay Pro colorimeter.³
- **Accurate color, out of the box:** Calibrated on AdobeRGB and sRGB to an accuracy of Delta-E < 2 with a factory calibration report that gives you the confidence that colors will be impressively accurate right from the start.

SUPERB RELIABILITY

Comes with Dell's high reliability promise.

1 As defined by UHD Alliance (www.uhdalliance.org)

2 Dell's software development kit enables you to customize Dell UltraSharp Monitors to your preferred in-house custom system, allowing you to easily manage color space and control video layout.

3 Requires Dell UltraSharp Color Calibration Solution software, available on www.Dell.com/support. The X-Rite iDisplay Pro colorimeter is available in selected countries for purchase from Dell. Contact a Dell representative to find out if it is available in your country. iDisplay Pro is also available from X-Rite's North American and Pantone online stores, and X-Rite's worldwide network of resellers.

4 In the event you discover even one bright pixel during the Limited Hardware Warranty period, a free panel exchange is guaranteed. (see pixel panel info located on Dell.com web page for complete details): <http://support.dell.com/support/topics/global.aspx/support/kcs/document?docid=414288>

5 Advanced Exchange Service: Replacement part/unit dispatched, if needed, following completion of phone/online diagnosis. Fee charged for failure to return defective unit. Availability varies. Other conditions apply.

6 For a copy of the Limited Hardware Warranty, write Dell USA LP, Attn: Warranties, One Dell Way, Round Rock, TX 78682 or see Dell.com/warranty.

7 The audio line-out port does not support headphones.
