

Epson Perfection V550 Photo

The Perfection V550 Photo is the versatile photo scanner that gives your old photographs a new lease of life. You can easily scan a range of negative and positive film – up to medium format - and use Digital ICE® Technology and Epson Easy Photo Fix software to transform your old photos into crisp, clear digital images, all in a matter of moments.

Fast, high-quality scanning

Thanks to Epson Matrix CCD technology and an optical resolution of 6,400dpi, every detail is faithfully captured. With fast, energy-efficient Epson ReadyScan LED technology, there's virtually no warm-up time, so you can start scanning your photos and films almost instantly.

Restore old photos

With Digital ICE Technology, damaged film can be digitally repaired without the need for time-consuming retouching. Imperfections, scratches and fingerprints are all removed from scanned film automatically. In addition, Epson Easy Photo Fix restores faded colour, removes the appearance of dust and adjusts backlight to bring your old photos back to life.

Negatives to digital

The built-in transparency unit allows you to scan two 35mm filmstrips (12 frames) or four 35mm mounted slides at a time and also supports medium format film. You can also scan up to A2-sized pages, such as large photos, newspaper articles, posters etc. with ArcSoft® Scan 'n' Stitch Deluxe™ software 1.

Scan to cloud

Epson Easy Photo Scan enables direct scanning to selected social media and photo sharing websites, as well as other cloud storage services. You can access your photos from almost anywhere and share with friends and family.

DATASHEET

KEY FEATURES

- 6,400dpi optical resolution
- Restore old, damaged film
- Upload photos directly online
- Film, slides and medium format film
- ReadyScan LED technology

PRODUCT SPECIFICATIONS

TECHNOLOGY

Scanner type	Flatbed Scanner
Scanning Resolution	6.400 dpi (Horizontal x Vertical)
Optical Resolution	Main 6.400 dpi x Sub 9.600 dpi
Optical Density	3,4 Dmax
Color Depth	Input: 48 Bits Color, Output: 48 Bits Color

SCANNER

Light Source	White LED, IR LED with ReadyScan LED Technology
Scanning Method	Fixed documents and moving carriage
Output Resolution	50~6400 (1 dpi step), 9600, 12800 dpi

SCANNING FEATURES
