

Essential Commercial TV Functionality

LG Public Display TVs are designed specifically for various business environments. With simple user-friendly interfaces and superb images and video, the LV340C series facilitates communications between businesses and their target audiences. Also, the LV340C series supports WOL (Wake on LAN) and SuperSign™ C helping the hotel managers remotely control TVs improving management efficiency.

LV340C

- Public Display Mode
- USB Cloning
- USB Auto Playback +
- RS-232C
- ^{NEW} WOL (Wake on LAN)
- ^{NEW} Crestron Connected® Certified

screen size

32" (31.5" Diagonal),
43" (42.5" Diagonal),
49" (48.5" Diagonal),
55" (54.9" Diagonal)

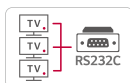

Key Features

Public Display Mode

From channel selection to volume level, you can control the TV settings in business areas. Public Display Mode also enables you to restore default settings, as required, on the TVs.

RS-232C Control

Via the TV's RS-232C port, you can remotely control power and volume settings simultaneously.

WOL (Wake on LAN)

WOL (Wake on LAN) helps you remotely turn on TVs over the internet. Connect TVs and a PC in the same network, and send Magic Packet program to the MAC addresses of registered TVs. Then, it will wake up the TVs via LAN port.

Simple & Effective Maintenance

USB Cloning

Clone all Public Display with astonishing speed and ease. The USB Cloning feature allows you to simply copy the TV settings to all TVs using a USB memory device.

Lock Mode

Lock Mode blocks external input signals with non-compliant content. This is a useful feature for preventing misuse of TVs in various facilities or public spaces.

Self Diagnostics via USB

Enables service engineers to analyze the data and identify technical issues quickly and easily through a USB memory device.

Convenience & Entertainment

USB Auto Playback+

Create a media playlist of your choosing (video, music, and/or images). Save it to a USB memory device, and then simply connect the USB memory device to the TV to stream your playlist sequentially.

SuperSign™ C

With SuperSign C, LG's signage management software, you can control and remotely monitor TVs via LAN port.

Welcome Screen (Splash Image)

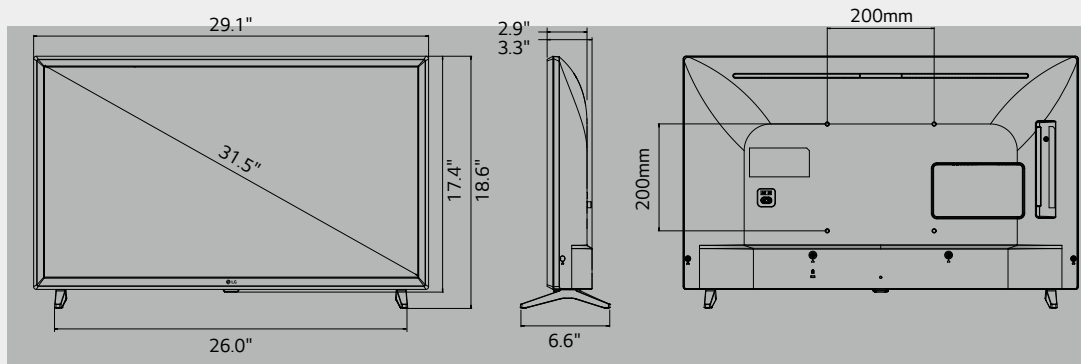

Display a warm greeting message with your business name/logo on the TV when it is turned on. Welcome screen leaves a favorable impression on visitors.
