

Lenovo ThinkPad X250

POSITIONING STATEMENT

The Lenovo ThinkPad X250 is a high-performance thin and light Ultrabook™ built for business users requiring maximum functionality. The ultimate ultraportable, the new X250 features the same connectivity capabilities as a traditional desktop in a sleek, ultra-portable form factor.

KEY FEATURES

- Lightweight and portable, measuring 20mm thin and weighing less than 3 pounds
- Increased performance with up to Intel® 5th Generation Core™ i7 processors
- Enhanced user experience with HD, HD Premium IPS, and FHD display options, touch technology, and Dolby® Advanced Audio 2
- Enhanced backlit keyboard
- With Power Bridge functionality, users can swap out the removable battery for the 6-cell travel battery without powering down the system allowing up to 20 hours of battery life on a single charge.
