- G** 3.5 mm in/out jack (unified connector for audio and microphone)
- H** Headphone Pouch

FEATURES

ENGLISH

- SUPERB AUDIO QUALITY**
 COUGAR MEGARA brings you the best sound quality available in a device of its class. With a 13.5 mm driver and an in-ear earbud design that will keep background noise out and provide you with crystal clear sound, COUGAR MEGARA will give new life to your games and music.
- CONVENIENT CONTROLLER**
 COUGAR MEGARA's incorporated controller will allow you to access, in a fast and comfortable way, key functionality of your device (learn more here).
- ANTI-ENTANGLEMENT FLAT CABLE**
 The ultra-resistant flat cable will prevent the frequent cable entanglement suffered by other devices (and the consequent irritation it generates!).
- ULTRA-LIGHT DESIGN**
 MEGARA's materials have been carefully selected to minimize its weight without sacrificing durability, which will allow you to use it for extended periods of time without experiencing tiredness or discomfort.
- IN-EAR HOOK**
 One of the problems of using earphones instead of headphones is the ease with which most models on the market will jump out of your ear at the slightest of movements. COUGAR MEGARA solves this by incorporating a comfortable and flexible silicone hook that will seamlessly insert itself in your ear, keeping the earbuds in place.
- MULTI-SIZED ERGONOMIC EAR TIPS**
 Three sizes of ear tips are included to guarantee a perfect fit with your ear and perfect isolation.
- ULTIMATE CLARITY**
 Different environments require different solutions, and sound input is not an exception. For important in-game communication, MEGARA's detachable microphone allows you to capture sound right from your mouth, making sure your instructions to your teammates do not get lost. When the time comes to go out, you can simply detach the microphone, for MEGARA's second microphone will work perfectly for phone calls, voice instructions for your phone and similar tasks.
