Full HD display

SA0 series brings users into a perfect colorful world in Full HD 1920 x 1080, and provides the finest natural and sharp original quality with In-Plane Switching* panel and 100,000,000:1 contrast ratio.

AMD Radeon FreeSync

With AMD Radeon FreeSync, the game's frame rate is determined by your graphics card, not the fixed refresh rate of the monitor. This means the monitor's frames are synced with the graphics card's frames, which eliminates screen tearing and delivers very smooth gaming experiences

In-Plane Switching technology

Advanced liquid crystal formula for advanced IPS* technology for premium color performance, which has no color difference at any viewing angle

Ultra-thin & ZeroFrame

SA0 series feature with ultra-thin enclosure, thinner than most of the smart phone. It also offers new zero-frame design, virtually removes the display bounding box and gives you all image, seamless visual enjoyment
