In a continuing effort to improve the quality of our products, information in this document is subject to change without notice. Images shown are only representations of some of the configurations available for this model. Availability may vary depending on region. As a phenomenon known to thin-film transistors (TFTs), liquid crystal displays (LCDs) commonly exhibit a small number of discoloration dots, as so-called \*non-conforming pixels.\* This phenomenon is a limitation of TFT LCD technology, not a product defect, and as such is not covered by Acer's warranty.
