Warranty	One-year International Travelers Warranty (ITW)			
1.	Specifications vary depending on model.		8.	Weight may vary depending on product configuration, vendor components, manufacturing variability, and selected options.
2.	64-bit software is required to enjoy the advantages of 64-bit processing.		9.	Bundled software may vary depending on hardware configuration, OS and regional availability.
3.	Shared system memory may be allocated to support graphics, depending on system memory size and other factors. Actual system memory available to the operating system will be reduced by any memory used by the graphics solution and resources required by the operating environment.		10.	Some models/configurations have a Microsoft Product Identification (MPI) card in the box, which contains a product key to activate the full version of Microsoft Office 2013 Home and Student Edition. If your device does not include an MPI card, you will need to purchase a product key separately.
4.	Memory speed may vary, depending on the CPU, chipset or memory fitted.		11.	Some models/configurations may activate to a 1 year subscription for Office 365 Personal, depending on the operating system installed.
5.	A 64-bit operating system is required to enjoy the ultimate performance of 4 GB or higher memory.			
6.	Resolution/refresh rates depend on display capability and color/depth settings.			
7.	1 GB is 1 billion bytes. 1 TB is 1000 GB. Actual formatted capacity is less and may vary depending on preloaded materials and operating environment. Recovery Management uses a portion of the stated hard disk capacity as dedicated backup space.			

In a continuing effort to improve the quality of our products, information in this document is subject to change without notice. Images shown are only representations of some of the configurations available for this model. Availability may vary depending on region. As a phenomenon known to thin-film transistors (TFTs), liquid crystal displays (LCDs) commonly exhibit a small number of discoloration dots, as so-called "non-conforming pixels." This phenomenon is a limitation of TFT LCD technology, not a product defect, and as such is not covered by Acer's warranty.
