ViewSonic®

Key **Features**
Fit For Classrooms of All Sizes | Discrete Wireless Multimedia Content Streaming | Easy Image Adjustment | SuperColor™: Best in Class Color Accuracy | Enlarged Speaker for Enhanced Sound

Product **Description**

For schools that need to project large, high-quality images from within a short distance, ViewSonic PS700X ultra-short throw projector is the perfect solution. With the ability to project 87" images from a distance of only 17.2cm* from the projection surface, the projector is flexible enough to fit any classrooms installation and keeps the projection beam clear of out of sight and eliminating image shadows for distraction-free classroom application. With the design of the PortAll® concealed compartment, PS700X provides more flexibility when using wireless dongles and PC sticks and allowing teachers to present more interesting lesson content. The best in class color accuracy of SuperColor™ Technology produces vibrant color, while SonicExpert® and SonicMode technologies deliver room-filling sound quality. *Actual distances may vary depending on environmental conditions
